

Raveis Internet Response Team

Doris Ghitelman, of William Raveis Real Estate in Southport, has been selected to the Raveis Internet Response Team. This unique service is being offered by Raveis to facilitate and accelerate the flow of market information to home buyers.

Over 70% of home buyers first check the internet for homes available in their area of interest. Terry Russo, VP sales, stressed the company's goals to be the best in responding to home buyers' inquiries via the internet. "We will provide a live person response to every inquiry within 10 minutes of receipt. Our goal is to be the most responsive realtor. In addition, you can request a no obligation competitive market analysis of your home via the internet. You will receive a thorough analysis of your home's value in today's market within 24 hours."

Doris is delighted to be selected to the internet response team because she says she believes "this provides a service of real value to home buyers in an environment where quick information can make the difference between getting a house and losing it to another buyer." Terry Russo chose Doris to be one of a handful of people in her office working with internet inquiries because of her ability to take charge and satisfy the most difficult of requests. "Her energy and resourcefulness makes her ideally suited for working with home buyers in this fast paced, information environment."
